

MBChB(ScotGEM) READING LIST – 2018 / 19

Reading throughout the first two years of the curriculum will be largely drawn from this list of books. The Medical School and the University library subscribe to a number of key eBooks which will be available online to all medical students. Our advice is to wait until you get to St Andrews before making decisions about purchasing, as some of these books are heavy! Note that the library only holds ~20 copies of each so it is recommended that students who prefer using physical copies consider buying their own copies in order to access the course literature in their own time. Additionally, most textbooks offer online resources that you can access using a code found within your purchased copy of the textbook.

You should check that you are buying the most recent edition. Books can be ordered in advance by contacting Blackwell's bookshop within the Student Union (st.andrews@blackwell.co.uk)

Authors	Title	Publishers	ISBN	eBook available
Moore et al	Clinically Orientated Anatomy, 8 th edition	Lippincott and Williams	978 1496354044	Yes
