

What
to do

IN AN EMERGENCY

If any other building faults such as heating/ventilation or other essential infrastructure occur, contact one of the numbers below.

FAULTS

If essential equipment such as fridges/freezers stop working, ensure the door remains closed and contact one of the numbers below.

EQUIPMENT

If you feel unsafe in the building during lone working times, please contact one of the numbers below.

SECURITY

If you notice a pool of water or a leak coming from the ceiling, contain the leak in a bucket (if possible) and contact one of the numbers below.

LEAKS

In case of an emergency between 07:00 & 22:00
contact Mike on 01334 46(3456)

In case of an emergency between 22:00 & 07:00
contact the Universities Out of Hours team on
01334 47(6161)

GAS

If you smell gas whilst in the lab, press the emergency stop button and contact one of the numbers above.

POWER

If a piece of equipment loses power, check another socket first. If all sockets in a bay are affected, contact one of the numbers above asap.

FIRE

If a fire breaks out, attempt to tackle if safe to. If the fire worsens, contact (9)999 and evacuate the building via the safest route.

HEALTH

If you become unwell whilst in the lab, please contact one of the numbers above immediately.
