Subject: Fw: Weekly Education Update (7)

Dear all staff involved in teaching,

Please see a link below to the Proctor's weekly update. Useful info re: assesement processes for the end of semester which all personal tutors might find useful, plus info on QAA guidance about digital integrity that may help inform plans for next academic year.

Also of note, the winners from the Student's Association Awards are listed in this update - You will notice our School President, Nathan, has recieved the Proctor's Award for his outstanding contribution to the School and wider University.

Several staff within the School were nominated for these awards by our students themselves - which is an achievement in its own right - so a huge well done to David Harrison (nominated for Best Teacher), Predrag Bjelogrljic (nominated for Innovative Teaching), Gozde Ozakinci (nominated for Bestg Project/Dissertation Supervisor) and Gary Barclay (nominated for Commitment by a Member of Professional Services Staff). Am sure we can all agree they were robbed 😊

Best wishes and stay safe,
Alun
